SPARE PARTS CATALOGUE

Introduction:

This catalog enables to recognize our appliances' main spare parts reading the single exploded views.

How to look up in our catalogue :

Hereunder we describe the correct method to look up in our catalogue, in order to locate the desired spare part in a quicker and more precise way.

For Example: You need the component's code-number of a gasrange with burners 1/1M.

- 1) Find the appliance's model and serial number on the rating plate.
(The rating plates are positioned in the internal side of the control panel).
- 2) Search for the belonging family in the index (BCPxxx-(0B)) . (f.ex. Gasrange with burners - top 1/1M).
- 3) After you have found the corresponding table you verify if the appliance's serial number is subsequent to that one indicated in the table.
- 4) You locate the desired spare part in the drawing on the left, and find the corresponding position in the table on the right.
- 5) Hence you obtain the codenumber and the description of the spare part you need.

LEGEND:

Position on the EXPLODED VIEW			X => Recommended spare part						
Technical description			Series						
Article's codenr.			1/2M => L=40 cm. 1/1M => L=80 cm. 1+1/2M => L=120 cm.						
Pos	Codice	Descrizione	700	1/1M					
1	822410081	Medium burner head (Dm.102)	1						
2	822410051	Medium venturi duct (Dm.102)	1						
14	826920140	Pilot burner	x	2
